

B&M Truck Torque Converters

Add seat of the pants POWER to your Diesel!

TASK MASTER DIESEL TORQUE CONVERTERS

These diesel converters are ideal for stock to modified diesel engines. They feature multiple disk lockup clutches, one-way clutch components, furnace brazed turbine and impeller and new turbine hub. These converters are intended to maximize the efficiency of your vehicle's engine and torque converter combination to improve acceleration and pulling power in light trucks.

APPLICATION	PART NO.
Chevy/GMC '03-up Allison 1000 w/Duramax	20503
Dodge '95-'04 A618 transmission	10504
Ford '90-'03 E40D/4R100 w/7.3L diesel	40503

Ideal for motorhomes & towing applications.

TRAVELER TORQUE CONVERTERS

The Traveler converter has a slightly higher stall speed to help get your vehicle moving. The Traveler is also stronger than a stock converter and has been internally modified to provide about 300rpm more stall speed for help in initial acceleration without sacrificing normal highway operation.

APPLICATION	PART NO.
Chevy '65-'91 TH375/TH400/TH425	20423
Chevy '68-'81 TH350/TH375B	30423
Chevy 700R4/4L60E	70422
Chevy 4L80E	70431
Ford '71-'91 C6 w/298-460 cid	40425
Ford '93-'04 E40D	50480

LIGHT TRUCK MEGASHIFTER

Includes a taller base and an adjustable floor mount for proper installation. Comes with neutral safety and back-up light switch, lighted gear indicator, aluminum T-handle and cable. For 3 & 4-speed trans. Reverse lock-out meets NHRA and IHRA requirements.

Part No. 80680

PRO-MATIC 2 RATCHET SHIFTER

Ratchet shifter for automatic transmissions is engineered for years of precise trouble-free shifting. Ideal for street or strip use. Pro-Matic's full forward ratchet action permits use with standard or reverse pattern valve bodies. An added feature is the positive reverse lock-out, an NHRA/IHRA requirement. Also available for trucks.

APPLICATION	PART NO.
GM TH 250, 350, 375, 400	383 8510
GM TH 700 R4 and 200 4R	383 8511
Ford C-4 and C-6	383 8510
Mopar Torqueflite A727-A904	383 8510
AMC Torque Command A727-A904	383 8510

HURST Truck Shifters

COMPETITION/PLUS SHIFTER FOR TRUCKS

The traditional Hurst Competition/Plus Shifter and Billet/Plus series shifters are now available for many later model pick-up trucks equipped with manual transmissions. This shifter is designed to provide a more positive and secure feel when shifting and incorporates a high ratio pivot mechanism for approximately 30% reduced knob travel resulting in shorter, quicker shifts. Patented adjustable bias spring loads allow stick tension to be tailored for driver's preference, and positive gear stops prevent oversifting and internal transmission damage. Supplied with chrome plated bolt-on stick with black knob and easily installed without any vehicle modifications.

MASTERSHIFT 3-SPEED SHIFTER

Provides precise gear selection and long life. Both a replacement floor shifter as well as column shift conversion. Installation kits are sold separately.

APPLICATION	PART NO.
55-66 Chevy all 1/2 ton PU (341) Chevy transmission	366 6809
Shifter installation kit	367 3112
67-68 Chevy 8 cyl. 1/2 ton PU (343) Saginaw transmission	366 6809
69 Chevy 6 & 8 cyl. 1/2 ton PU (343) Saginaw transmission	366 6809
Shifter installation kit	367 7143
69-81 Chevy all 1/2 & 3/4 ton 2WD, also Blazer & Suburban (343) Saginaw or (351) Muncie transmission	366 6809
68-81 GMC all 1/2 & 3/4 ton 2WD, (343) Saginaw, 68-77 1/2 & 3/4 ton 2WD (351) Muncie transmission	366 6809
Shifter installation kit	367 0006
66-77 Ford Bronco 8 cyl. (333) Ford T&C transmission	366 6901
Shifter installation kit	367 0013
63-79 Ford 1/2 ton PU 2WD, (333) Ford T&C transmission	366 6809
Shifter installation kit	367 0027

INDY PICKUP TRUCK 3-SPEED SHIFTER

A perfect replacement for old floor shifters, or an ideal conversion from column shifters. Complete with all linkage, mounting hardware, and easy to follow installation guide. Use optional Boot and Plate #114 8429 for finished appearance.

Chevrolet and GMC: 1969 and later. All 2WD with Saginaw, Muncie and Tremec transmission.

Ford: 1963 and later. All 2WD with Ford and Tremec transmissions.

Part No. 501 0016

CENTERFORCE Clutches

Centerforce® offers multi-level product lines allowing customers to choose a performance clutch that matches their application and driving style. Centerforce clutch assemblies are designed as an improved OE-style, direct bolt-in replacement performance clutch. The unique Centerforce design allows for easy pedal effort and everyday drivability, while offering increased holding-capacity for maximum performance. Centerforce engineers evaluate each assembly and apply our patented processes to increase the clutches holding-capacity and performance.

DUAL FRICTION

The Centerforce Dual-Friction pressure plates feature our patented processes to provide a performance clutch that offers exceptional street characteristics, while offering outstanding holding-capacity and durability. The Dual-Friction disc has a full facing on the pressure plate side for drivability and longevity, while a carbon composite puc style (segmented) facing is used on the flywheel side for a positive engagement and increased holding-capacity. Dual Friction is the ultimate in street/strip holding power and performance without sacrificing pedal effort and driver control.

CENTERFORCE I

The Centerforce I is designed as a high-quality entry-level performance clutch for those in need of a superior stock replacement. Using the patented Centerforce centrifugal weights (where applicable) and premium friction materials, the Centerforce Stage 1 clutch system is perfect for applications with stock engines or mild power increases from minor bolt-on modifications.
